## **DETAILED ACTION**

1. Claims 1-18 are presented for examination.

### ***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on February 23, 2005 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

### ***Specification***

3. This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.
4. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

### ***Claim Rejections - 35 USC § 112***

5. Regarding claim 1, on line 2 the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

***Allowable Subject Matter***

6. Claims 1-18 are allowed.
7. The following is a statement of reasons for the indication of allowable subject matter:

Claims 1-18 are allowable over the prior art of record because none of the prior art of record teaches or fairly suggests a system or method for improving magnetic printing by providing compound phase pattern for use on a reference surface of a magnetic recording device with combinations of phases of the phase bursts encoded to define unique cross-track positions from a printed pattern so the cross track position of a read sensor of a magnetic recording system or other track oriented machine can be verified from only the local data.

***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
9. Any inquiry concerning this communication from the examiner should be directed to Fred Tzeng whose telephone number is 571-272-7565. The examiner can normally be reached on weekdays from 9:30 am to 6:00 pm.
